[For BlackBerry \(with Blackberry Messenger Version 5.0 or Higher\):](#)

BlackBerry has a code reader built into **BlackBerry Messenger**.

Go to BlackBerry Messenger (BBM ver. 5.0), press **Menu**, select **invite contact** and select **scan bar code**

Then simply hover your phone over the scan code to read it.

[For BlackBerry Torch](#)

Go to App World, press the menu key and select "Scan a Barcode."

[For iPhone and Android:](#)

Installing the reader:

To install the free reader, simply open your browser from the home screen and visit **www.mviso.com/scan** - Then select the blue **Click Here** link.

This will identify your phone and direct you to the app installation for your device.

Using the Reader:

After installation, open the i-nigma reader by selecting it from your home screen and **select Scan Code**. Then simply hover your phone over the scan code to read it!

[How do I upgrade to BlackBerry Messenger Version 5.0?](#)

If you don't have the QR scan code capability, you will need to upgrade to BBM Version 5.

To do so, simply open your browser from the home screen and visit the below URL.

<http://www.blackberry.com/bbm>

(Follow the download instructions and then refer to **For BlackBerry** above to scan)
